- **HIGH LEVEL GOALS:**

- Locally deployed website (server-deployed for presentation)
- Calendars that are shared via URL link
- Can edit with minimal authentication
- Calendars that are visually pleasing even with many entries

- **USER STORIES FOR RELEASE:**

- Sprint 1
 - User Story 1: "As a user, I want to access a home page"
 - User Story 2: "As a user, I want to input my schedule"
 - User Story 3: "As a user, I want to find gaps in my schedule"
- Sprint 2
 - User Story 1: "As a user, I want to see gaps between multiple schedules"
 - User Story 2: "As a user, I want some kind of graphical representation of my schedule"
 - User Story 3: "As a user, I want all information to be easy to read"
- Sprint 3
 - User Story 1: "As a user, I want common gaps to be graphically highlighted"
 - User Story 2: "As a user, I want the web page to be aesthetically pleasing"
 - User Story 3: "As a user, I want the application to look nice on my mobile device"

- **Product Backlog**

- Login with Facebook
- Download a pdf of my schedule
- Customize how my schedule looks
